

Fruit Risk Assessment Programme for Pesticides

## FRAPP - Confirmation

We herewith confirm that the company

**Hellenic Juice Industry ASPIS S.A.C. Dedes**

Zervohori-Irinoupolis  
GREECE

participated in the FRAPP scope by providing data  
about pesticides applied on the following crops  
for the harvest year **2022**:

Apple	Kiwi	Peach
Apricot	Pear	Sweet cherry
Carrot	Persimmon	Strawberry

The participation improves the company's ability of a suitable risk assessment and risk management and shows their agreement with the quality philosophy of the **Voluntary Control System** of SGF INTERNATIONAL E.V.

The contribution is part of a proactive approach to fulfil due diligence in terms of pesticide residues, prevention of safety risks and consumer protection.
